=====QUESTIONS ABOUT COMPLIANCE

Q.7 How much compliance is outsourced?

What percentage of compliance effort in total is outsourced to vendor(s) or contractor(s) hired for this purpose?

0%

Q.8 What mostly do you use for compliance?

Please indicate the top entry as the solution you use most to create compliance documents. Rank the rest below going downwards in use. Move solutions not used below ---MOVE---

✚ Paper, word processors or spreadsheets.

✚ ---MOVE SOLUTIONS USED ABOVE THIS. ONES NOT USED, BELOW THIS.---

✚ OTHER solution like enterprise provided or home grown.

✚ Requirements management software like Jama or codeBeamer.

✚ Modular suite software like Master Control, Etq or Greenlight.

Q.9 Why do you use paper, word processors and spreadsheets? Or, why not?

Compelling reason still using manual typing and data entry. Or, why you aren't using it now.

Q.10 Why do you use requirements management software? Or, why not?

Reason you use requirements management software. And/or, the difficulties getting the promised productivity, simplicity, convenience, risk reduction, and compliance.

Q.11 Why do you use modular suite software? Or, why not?

Reason you use modular suite software. And/or, the difficulties getting the promised productivity, simplicity, convenience, risk reduction, and compliance.

Q.12 What is your OTHER solution? What's so great about it?

Reasons you use your OTHER solution. And/or, the difficulties getting the expected productivity, simplicity, convenience, risk reduction, and compliance.

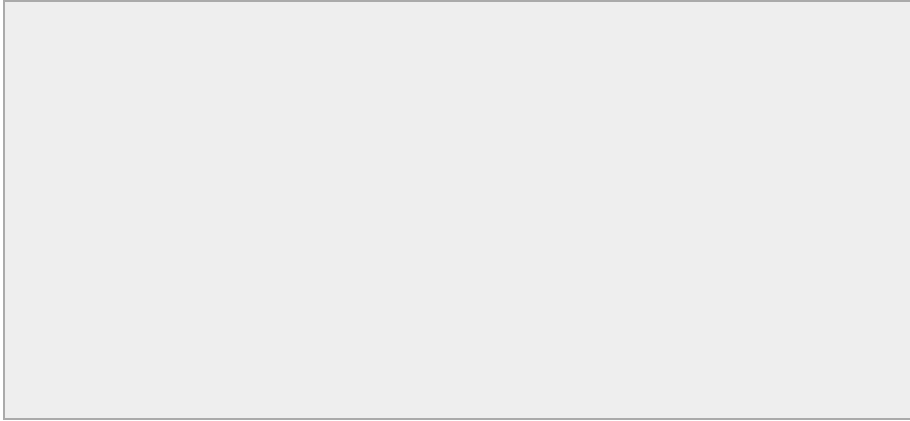

Q.13 How do you like your compliance solution?

- I really love it.
- I would replace it if I came across something better.

- I am actively looking to find something better.
- I can't wait to replace it with something better.

=====QUESTIONS ABOUT RISK MANAGEMENT

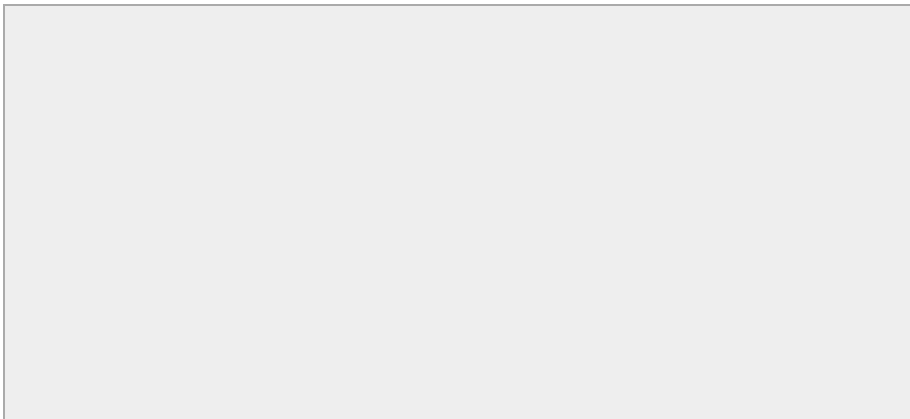

Q.14 Are there separate group(s) to perform risk management? Is this outsourced?

Q.15 What are your risk management solutions, software, tools or methods?

Reason you use these risk management solutions. And/or, the difficulties getting the promised productivity, simplicity, convenience, and risk reduction.

Using Fault Tree Analysis? Indicate which tool is used here and go to the front of the line for a method PDF. It shows a really great way to use it to routinely perform world-class risk management.

Q.16 How do you like your risk management solutions?

- I really love them.
- I would replace them if I came across something better.
- I am actively looking to find something better.
- I can't wait to replace them with something better.

Q.17 Are Failure Mode and Effects Analysis (FMEA) processes executed?

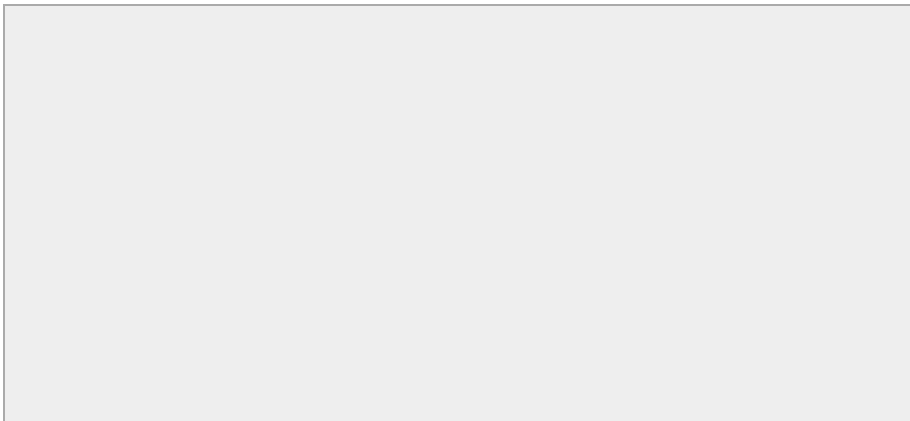

- No.
- Yes, using Detectability.
- Yes, but not using Detectability.

Q.18 Are Fault Tree Analysis (FTA) processes executed?

- No.
- Yes, using Detectability.
- Yes, but not using Detectability.

Q.19 What do you think?

Enter your name to go with your email to start a conversation. Please indicate what features of your current compliance and risk management solution(s) you like or dislike. Also, describe what features you think are missing and would be a welcome part of your ideal solution. Any comments are welcome.

Thanks for taking this survey. It helps us build up a picture of the status quo. And, it can help the interview process by capturing your baseline data as fast as you can click. Also, giving you time, if necessary, to research some questions offline. All of this leaving more time to talk.

I look forward to our conversation.

Rick
